

**NEVADA GIRLS STATE
SENATE BILL NO. 19**

AN ACT that will require state-based construction companies to transmit on the news and radio the expected time of completion of extended projects and have postings of upcoming projects. This will inform the public regarding infrastructure recovery and streamline construction practices and policies.

Section 1: Injuries and fatalities have been reported due to unexpected and long-term construction projects.

Section 2: Extensive construction causes inconveniences in everyday life such as interference with day to day schedules, hindering business transactions, and violations of Occupational Safety and Health Administration (OSHA) policies.

Section 3: High traffic areas and major roads will be prioritized by construction companies to facilitate better transportation.

Section 4: Implementing a tax of 3% on real fur products will fund all costs to broadcast updates on news and radio programs.

Section 5: This act will be effective upon passage.
